Winter's Tales tackles the question of whether narrative and drama are as different from each other as some scholars have assumed. By examining everything from voice and tense to "scene and summary," George, a theater professor and novelist, analyzes the many choices a writer has when

framing a story. She addresses narrative theoretical ground before focusing on contemporary plays that are "novelistic." She finishes the study by examining the problems of adaptation from novel to stage. Her account is-by way of its essayistic style-personal, at times a writer's journal of reading and writing discoveries. In *Winter's Tales*, George demonstrates, among other things, the ways the diegetic is evident in the very content of frame plays and divided plays: she distinguishes between kinds of memory plays by cataloguing the possible stances of the narrator: she also covers subjects like multiple narration, and she gives accounts of the epic, dramatic, and lyric solutions to adapting novels. Kathleen George is a Professor in the Theatre Arts Department at the University of Pittsburgh. 'A clear, concise, easy-to-read account of the issues between sex, gender and feminism . . . an important book' Evening Standard 'A call for cool heads at a time of great heat and a vital reminder that revolutions don't always end well' Sunday Times Material Girls is a timely and trenchant critique of the influential theory that we all have an inner feeling known as a gender identity, and that this feeling is more socially significant than our biological sex. Professor Kathleen Stock surveys the philosophical ideas that led to this point, and closely interrogates each one, from De Beauvoir's statement that, 'One is not born, but rather becomes a woman' (an assertion she contends has been misinterpreted and repurposed), to Judith Butler's claim that language creates biological reality, rather than describing it. She looks at biological sex in a range of important contexts, including women-only spaces and resources, healthcare, epidemiology, political organization and data collection. Material Girls makes a clear, humane and feminist case for our retaining the ability to discuss reality, and concludes with a positive vision for the future, in which trans rights activists and feminists can collaborate to achieve some of their political aims. Nineteenth-century British periodicals for girls and women offer a wealth of material to understand how girls and women fit into their social and cultural worlds, of which music making was an important part. *The Girl’s Own Paper*, first published in 1880, stands out because of its rich musical content. Keeping practical usefulness as a research tool and as a guide to further reading in mind, Judith Barger has catalogued the musical content found in the weekly and later monthly issues during the magazine’s first thirty years, in music scores, instalments of serialized fiction about musicians, music-related nonfiction, poetry with a musical title or theme, illustrations depicting music making and replies to musical correspondents. The book’s introductory chapter reveals how content in *The Girl’s Own Paper* changed over time to reflect a shift in women’s music making

from a female accomplishment to an increasingly professional role within the discipline, using 'the piano girl' as a case study. A comparison with musical content found in *The Boy's Own Paper* over the same time span offers additional insight into musical content chosen for the girls' magazine. A user's guide precedes the chronological annotated catalogue; the indexes that follow reveal the magazine's diversity of approach to the subject of music. Please note: This is a companion version & not the original book.

Sample Book Insights:

- #1 Modern trans activism is based on four axioms: 1. You have an important inner state called a gender identity. 2. For some people, inner gender identity doesn't match the biological sex – male or female – originally assigned to them at birth. 3. Gender identity, not biological sex, is what makes you a man or a woman. 4. The existence of trans people generates a moral obligation upon all of us to recognize and legally protect gender identity.
- #2 The distinction between sex and gender is a central tenet of feminism. It is the belief that cultural expectations about femininity and masculinity are created by and in the interest of men.
- #3 Some feminist theorists went even further, arguing that de Beauvoir actually meant that being a woman is essentially social, not biological. Thus, it is no longer necessary to challenge the notion that women are naturally suited for home life rather than professional work or intellectual life.
- #4 John Money, a psychologist and paediatrician, developed two important concepts in the field of gender identity: gender role and gender identity. He believed that we all adopt gender roles, but that some people with DSDs may not have outwardly gendered behaviors that match their biological status.

A School for Unusual Girls is the first captivating installment in the Stranje House series for young adults by award-winning author Kathleen Baldwin. #1 New York Times bestselling author Meg Cabot calls this romantic Regency adventure "completely original and totally engrossing." It's 1814. Napoleon is exiled on Elba. Europe is in shambles. Britain is at war on four fronts. And Stranje House, a School for Unusual Girls, has become one of Regency England's dark little secrets. First published in 1975, Donald Akenson's book was at the forefront of a radically new approach to the study of Irish educational history. Instead of investigating the evolution of the schools as an isolated process, he explores the complex interrelations of Irish education, institutions and society, treating the schools as cultural litmus paper. By presenting Ireland's schools as a reflection of the society that produced them, Professor Akenson demonstrates that they are, in truth, "a mirror to the face of Kathleen ni Houlihan". More girls are producing media today than at any other point in U.S. history, and they are creating media texts in virtually every format currently possible--

magazines, films, musical recordings, and websites. *Girls Make Media* explores how young female media producers have reclaimed and reconfigured girlhood as a site for radical social, cultural, and political agency. Central to the book is an analysis of Riot Grrrl--a 1990s feminist youth movement from a fusion of punk rock and gender theory--and the girl power movement it inspired. The author also looks at the rise of girls-only media education programs, and the creation of girls' studies. This book will be essential reading for anyone seeking to understand contemporary female youth in today's media culture. Kathleen Ferrier has a reputation as the greatest lyric contralto of the twentieth century. Her story, from her humble beginnings as a telephone operator in Blackburn to the height of international fame as one of the world's leading concert artists and her untimely death at the age of forty-one, is told told with compelling insight and perception, using a variety of sources, from photographs, diaries, and private letters

to the memoirs and recollections of those who knew her best. Despite having no formal musical training, Kathleen worked with all the celebrated conductors of the time, and is remembered for her performances of music by Brahms, Schubert and Mahler, as well as a handful of operatic roles. Enlarging considerably on many alternative biographies, this excellent account captures the warmth, humour and charm of a figure whose astonishing life and career proved to be, sadly, all too brief. Written with the co-operation of Kathleen's sister, Winifred, Maurice Leonard provides the most comprehensive biography available of one of the greatest singers of the twentieth century.
