*Love, Chocolate, and Beer (Cactus Creek, Book 1: Luke & Dani)* Mar 15 2022 -- A USA TODAY best-seller -- Brewmaster and town sweetheart Dani Dobson is officially declaring war against her hot, maddening new menace of a neighbor--and his shop. How the man manages to provoke her so much is beyond her. But he does, and really, she's just picking up the gauntlet he tosses her way. The terms of their little throwdown? Her business versus his in the arena of romance. And the stakes? Very likely, her heart. Chocolatier and town newcomer Luke Bradford loves his shop's new home. Partly because he couldn't ask for a better fresh start for both his professional and personal life, and partly (okay, mostly) because he gets to lock horns with the feisty beer-brewing beauty next door, and effectively push all her buttons on a fairly regular basis. To be fair, in his defense-- Just kidding. He has no defense. As far as the meddling matchmakers in this quirky little town are concerned, this is going to be their most unlikely (and interesting) pairing yet... "Violet Duke always writes such compelling, delightful characters who manage to pull you in and make you feel a part of their lives."

-- #1 New York Times Bestselling Author Barbara Freethy ♥ AUTHOR NOTE ♥ Be forewarned, this slow-burn romcom is definitely sweeter (and longer) than my other books (but there is still some on-page steam, as well as a few curse words--no f-bombs though, per usual). A book about a brewmaster and chocolatier battling over Valentine's Day supremacy? Yep, it was a given I was going to go all-out on the feel-good romance for this one. :) So if you're in the mood for a light and fun love story (with some of my token laugh-and-cry Violet Duke-ness, of course) between two stubbornly romantic characters who work hard for their happily ever after, this is the book for you! xoxo ♥ V THE CACTUS CREEK SERIES Love, Chocolate, and Beer [Luke & Dani] Love, Diamonds, and Spades [Rylan & Quinn] Love, Tussles, and Takedowns [Hudson & Lia] Love, Exes, and Ohs [Isaac & Xoey] All the Cactus Creek books are standalone novels with feel-good HEAs. :) Enjoy!

**Archaeological Chemistry** Jul 07 2021 The use of chemistry in archaeology can help archaeologists answer questions about the nature and origin of the many organic and inorganic finds recovered through excavation, providing valuable information about the social history of humankind. This textbook tackles the fundamental issues in chemical studies of archaeological materials.

Examining the most widely used analytical techniques in archaeology, the third edition of this comprehensive textbook features a new chapter on proteomics, capturing significant developments in protein recognition for dating and characterisation. The textbook has been updated to encompass the latest developments in the field. The textbook explores several archaeological investigations in which chemistry has been employed in tracing the origins of or in studying artefacts, and includes chapters on obsidian, ceramics, glass, metals and resins. It is an essential companion to students in archaeological science and chemistry, as well as to archaeologists, and those involved in conserving human artefacts.

**After the Wildfire** May 05 2021 Swallowtail butterflies frolic on the wind. Vireos and rock wrens sing their hearts out by the recovering creek. Spiders and other predators chase their next meal. Through it all, John Alcock observes, records, and delights in what he sees. In a once-burnt area, life resurges. Plants whose seeds and roots withstood an intense fire become habitat for the returning creatures of the wild. After the Wildfire describes the remarkable recovery of wildlife in the Mazatzal Mountains in central Arizona. It is the rare observer who has the dedication to revisit the site of a wildfire, especially over many years and seasons. But naturalist John Alcock returned again and again to the Mazatzals, where the disastrous Willow fire of 2004 burned 187 square miles. Documenting the fire's aftermath over a decade, Alcock thrills at the renewal of the once-blackened

region. Walking the South Fork of Deer Creek in all seasons as the years passed, he was rewarded by the sight of exuberant plant life that in turn fostered an equally satisfying return of animals ranging from small insects to large mammals. Alcock clearly explains the response of chaparral plants to fire and the creatures that reinhabit these plants as they come back from a ferocious blaze: the great spreadwing damselfly, the western meadowlark, the elk, and birds and bugs of rich and colorful varieties. This book is at once a journey of biological discovery and a celebration of the ability of living things to reoccupy a devastated location. Alcock encourages others to engage the natural world—even one that has burnt to the ground.

**Birding Trails Texas Gulf Coast** Jul 19 2022 The Texas Gulf Coast is one of the most outstanding birding locations in North America. From whooping cranes to sandhill cranes, ducks, geese, raptors and the hundreds of song birds that migrate every year to the Texas Gulf make this a birder's paradise. There are numerous public sites that make for easy birding. Each year, during the last week of February, there is a Whooping Crane Festival in Port Aransas and Mustang Island that attracts thousands of birders. It features workshops, demonstrations, speakers, and many guided birding trips to local birding locations. Jim Foster is a noted birder. He describes each birding trail with a list of key birds, the best time of year to visit each trail, the type of terrain, size, and complete directions to each area, many with maps of each trail. Texas is one of the four best birding states in the U.S. with over 2.5 million resident birders and thousands of non-resident birders who visit the state each year. Currently there are over 51 million birders in the United States and over 20 million travel out of their state each year to view birds. *Birding Trails Texas: Gulf Coast* is a must book for all birders.

**Love, Chocolate and Beer** Feb 26 2023 Romance has met its most unlikely match-up... Luke Bradford is a chocolatier on a mission. After moving his chocolate shop, and newly single life, to the quirky town of Cactus Creek, Luke wants nothing more than to devote all his energy into making his business a success-by taking the romance market by storm. But his grand plans get thrown for a loop when he locks horns with the feisty beer-brewing beauty next door who calls his 'romantic idealism' a load of fairytale bull. Soon, driving the woman sparking nuts becomes another wickedly fun priority he simply can't get enough of. In his defense, she's addictively easy to incite...and plain impossible to resist. Beloved local brewmaster Dani Dobson is beyond riled up. It's bad enough the new shop owner in town comes locked and loaded with both a distractingly rugged charm and sexy flashing dimples, but the whole only-in-the-movies variety of romance he's selling-the kind her world has been crushed by before-is really doing a number on her allergy to unrealistic cliches. What's worse, he's created an annoyingly clever ad campaign that dubs 'beer joints' like hers as the "cave where romance goes to hibernate." The nerve of that man. Combustible chemistry or not, damn it, this means war. The stakes...very likely, her heart."

The Cactus Creek Challenge Dec 24 2022 Anything he can do, I can do better. Cassie has been in love with Ben since primer school, but Ben treats her like a little sister. When they are picked to swap jobs for a month as part of the annual Cactus Creek Challenge in their Texas hometown, the schoolhouse is thrown into an uproar, the jail becomes a temporary bank vault, and Cassie and Ben square off in a battle of wills that becomes a battle for their hearts.

*Love, Sidelines, and Endzones* Apr 28 2023 Grady Richardson is used to folks questioning why he never went pro. Sharing genes with a family of NFL greats, it should've been the natural decision. But instead, he chose coaching. Back when he was getting hit with hard life lessons for all his wrong choices, it was the first one he'd made that had felt so right. Moving to the oddball town of Cactus Creek is now officially the second. Here, folks care less about his name and more what the local auto shop teacher--daughter of the coach he's replacing--thinks of him. It's refreshingly different. She's refreshingly different. An opinionated powder keg with mind-melting curves and a garage full of tools he's sure she'd like to hurl at him half the time, Sienna Whitman is the president and sole member of his non-fan club. And lately, it seems all their heated debates over his high-scoring offense dominating her old school defense is starting to mean something a whole lot different in his

head... Sienna Whitman is used to being kept on the sidelines. Cactus Creek's town coaching legend--just plain 'Dad' to Sienna--could've recommended her as an assistant coach to his successor upon his retirement. But thanks to that pesky lack of a Y chromosome on her resume, here she is, back as overqualified team statistician, secretly feeding field plays to her coaching buddies through her phone yet again. Now, it wouldn't be half bad if not for the new head coach continuously pushing her buttons at every turn. Mr. All American good looks with that 'new school offense' of his is driving her crazy. And not just because he's under the very mistaken notion that she's a sex addict in rehab, thanks to the opposite-of-quick thinking by her partners in crime on the field--seriously, if only her Bluetooth had a kill function. No, it's the unprecedented realization that just being around Grady makes Sienna want that rehab center's number for real. On speed dial. Hell, it's going to be a long season... Author Note: Thank you all SO much for your patience these last three and a half years while I've been on medical leave receiving treatments and surgeries for multiple organ problems. I love you all to pieces and can't WAIT for you to read Grady & Sienna's fun and feel-good romcom (the chemistry between these two is just insane)! <3 THE CACTUS CREEK SERIES Love, Chocolate, and Beer [Luke & Dani] Love, Diamonds, and Spades [Rylan & Quinn] Love, Tussles, and Takedowns [Hudson & Lia] Love, Exes, and Ohs [Isaac & Xoey] Love, Sidelines, and Endzones [Grady & Sienna] All the Cactus Creek novels are standalone novels with feel good HEAs.
