*Ideal Homes?* Mar 24 2022 *Ideal Homes?* shows how both popular images and experiences of home life relate to the ability of society's members to produce and respond to social change. The book provides for the first time an analysis of the space of the home and the experiences of home life by writers from a wide range of disciplines, including sociology, architecture, geography and anthropology. It covers a range of subjects, including gender roles, different generations relationships to home, the changing nature of the family, transition and risk and alternative visions of home.

**The American Heritage Dictionary of Indo-European Roots** Jan 28 2020 Discusses the nature, origins, and development of language and lists the meanings and associated word for more than thirteen thousand Indo-European root words.

*The Ganja Complex* Jan 22 2022 In 2000, Hamid (anthropology, John Jay College of Criminal Justice, New York) made additions and revisions to his 1980s doctoral dissertation for Columbia University. He examines the plant cannabis, or marijuana, its 5,000-year-use as a magical herb, its use specifically among Caribbeans at home and in New York City and the economics of that use, and social science perspectives on claims made about it by both supporters and opponents. *The Early Church* Dec 29 2019 Chadwick's *Early Church* covers, as the book cover suggests, "the story of emergent Christianity from the apostolic age to the dividing of the ways between the Greek East and the Latin West." The story unfolds with the Jewish and Roman background within which the beginning church was nourished. It then goes on to show how important it is for the church to establish order and unity amidst threats of persecution and heresy. The emergence of apologists helps not only the expansion of the church but also the construction of Christian doctrine. At the same time, controversies abound as the church encountered many different cultural and sociological challenges while trying out in reaction a variety of ideas. With chapter seven, the relation between church and state changes, resulting in a stronger influence of the state upon the church while accelerating the split between the Latin West and the Greek East. The Arian controversy shows a period of instability between state and church, and also deepens the split of East and West. But within the turmoil, ascetic practice, papacy, liturgy, and art are established, helping to transmit a common European culture while the Roman Empire begins to degenerate.

[Ulysses](#) Apr 05 2023 Loosely based on the *Odyssey*, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

*Icon and Devotion* May 14 2021 *Icon and Devotion* offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

**The Fall of Rome** Sep 05 2020 Why did Rome fall? Vicious barbarian invasions during the fifth century resulted in the cataclysmic end of the world's most powerful civilization, and a 'dark age' for its conquered peoples. Or did it? The dominant view of this period today is that the 'fall of Rome' was a largely peaceful transition to Germanic rule, and the start of a positive cultural transformation. Bryan Ward-Perkins encourages every reader to think again by reclaiming the drama and violence of the last days of the Roman world, and reminding us of the very real horrors of barbarian occupation. Attacking new sources with relish and making use of a range of contemporary archaeological evidence, he looks at both the wider explanations for the disintegration of the Roman world and also the consequences for the lives of everyday Romans, in a world of economic collapse, marauding barbarians, and the rise of a new religious orthodoxy. He also looks at how and why successive generations have understood this period differently, and why the story is still so significant today.

*The Mismeasure of Desire* Mar 04 2023 For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide

campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

*Sea of Pearls* Jul 04 2020 Since Antiquity the natural pearls of the Gulf have been famed as the finest, most lustrous and most plentiful that the world can offer. From the beginnings of trade until the 1930s, these pearls were a major product of the Gulf's coastal peoples. Latterly, from the 17th to the early 20th centuries, rising international demand turned pearling into their economic mainstay. By this time pearls were fished in their millions, and pearling became the pillar of the regional economy, dominating the lives, health and expectations of entire shaikhdoms. The influx of people and wealth to the coast permanently transformed the Gulf, providing the manpower and capital to germinate and nurture the city-states - notably Kuwait, Bahrain, Qatar, Abu Dhabi, Dubai, Sharjah and Ras al-Khaimah - which endure there today. Despite its formative role, there has until now been no book taking the entire history of pearling as its subject. Dr Carter's ground-breaking work traces its evolution on both the Arabian and the Persian sides of the Gulf, and explores the role it played in shaping the political, social and urban configuration that we see in the region today. It shows the extent to which the Gulf economy became dependent on a single commodity, and how, in that respect, pearling resembled the oil industry that would replace it. Lavishly illustrated, this book covers in unprecedented detail the history, development, conduct, florescence and catastrophic collapse of the industry in the early 20th century. It will fascinate not only those wishing to understand the growth and conduct of the pearl fishery, but also those interested in the history of the region and the origins of the Gulf states, and in the colourful story of the global taste for one of mankind's most highly prized precious stones.

*Veterinary Mycology* Apr 12 2021 This book is a comprehensive overview of the fungi that are clinically relevant for animals and humans. It is divided in three major parts: the first part comprises the history of veterinary and medical mycology, general aspects of morphology, growth, nutrition, reproduction and classification of fungi. In the second part, the etiologic agents of cutaneous, subcutaneous and systemic mycoses are described in detail with special emphasis on emerging and uncommon pathogenic fungi. Each chapter consists of a brief history and the morphology, classification, reproduction, susceptibility to disinfectants, natural habitat, distribution, genome, isolation, growth and colony characteristics, antigenic characteristics, virulence factors. The major diseases and their routes of transmission, pathogenesis, immunity, diagnosis and treatment are also covered. The third part focuses on laboratory diagnosis including clinical sample collection, their processing for fungal isolation, special stains for microscopic visualization, culture media composition and a relevant glossary. Each chapter includes color photographs, schematic diagrams and tables for better understanding.

**The Sociology of Early Buddhism** Mar 31 2020 Early Buddhism flourished because it was able to take up the challenge represented by buoyant economic conditions and the need for cultural uniformity in the newly emergent states in north-eastern India from the fifth century BCE onwards. This book begins with the apparent inconsistency of Buddhism, a renunciant movement, surviving within a strong urban environment, and draws out the implications of this. In spite of the Buddhist ascetic imperative, the Buddha and other celebrated monks moved easily through various levels of society and fitted into the urban landscape they inhabited. The Sociology of Early Buddhism tells how and why the early monks were able to exploit the social and political conditions of mid-first millennium north-eastern India in such a way as to ensure the growth of

Buddhism into a major world religion. Its readership lies both within Buddhist studies and more widely among historians, sociologists and anthropologists of religion.

The Cambridge World History of Violence: Volume 1, The Prehistoric and Ancient Worlds Dec 09 2020 The first in a four-volume set, The Cambridge World History of Violence, Volume 1 provides a comprehensive examination of violence in prehistory and the ancient world. Covering the Palaeolithic through to the end of classical antiquity, the chapters take a global perspective spanning sub-Saharan Africa, the Near East, Europe, India, China, Japan and Central America. Unlike many previous works, this book does not focus only on warfare but examines violence as a broader phenomenon. The historical approach complements, and in some cases critiques, previous research on the anthropology and psychology of violence in the human story. Written by a team of contributors who are experts in each of their respective fields, Volume 1 will be of particular interest to anyone fascinated by archaeology and the ancient world.

*Mystics and Zen Masters* Jul 16 2021 Thomas Merton was recognized as one of those rare Western minds that are entirely at home with the Zen experience. In this collection, he discusses diverse religious concepts—early monasticism, Russian Orthodox spirituality, the Shakers, and Zen Buddhism—with characteristic Western directness. Merton not only studied these religions from the outside but grasped them by empathy and living participation from within. "All these studies," wrote Merton, "are united by one central concern: to understand various ways in which men of different traditions have conceived the meaning and method of the 'way' which leads to the highest levels of religious or of metaphysical awareness."

Lectures to My Students Dec 01 2022 Though best remembered as the most popular preacher of the Victorian era, C. H. Spurgeon was also founder and president of the Pastors College in London. He supervised the training of over 800 students, presided at an annual conference for ministers, and, on Friday afternoons, delivered regular lectures on every aspect of pulpit ministry. Featuring such gems as "The Ministers Fainting Fits" "Posture, Action, Gesture, etc." and "On the Choice of a Text," this unabridged edition of 28 of Spurgeon's classroom discourses on homiletics overflows with practical wisdom, discerning wit, and sage advice. Covering the call, open-air preaching, ordinary conversations, using illustrations, and conduct outside the church, Spurgeon's words are as rich and nourishing for pastors and students today as they were more than a century ago. CHAPTERS INCLUDE The Ministers Self-Watch Our Public Prayer On Spiritualizing The Blind Eye and the Deaf Ear On Conversion as Our Aim The Sciences as Sources of Illustration

**The Art of Public Speaking** Aug 29 2022 ACQUIRING CONFIDENCE BEFORE AN AUDIENCE There is a strange sensation often experienced in the presence of an audience. It may proceed from the gaze of the many eyes that turn upon the speaker, especially if he permits himself to steadily return that gaze. Most speakers have been conscious of this in a nameless thrill, a real something, pervading the atmosphere, tangible, evanescent, indescribable. All writers have borne testimony to the power of a speaker's eye in impressing an audience. This influence which we are now considering is the reverse of that picture—the power \_their\_ eyes may exert upon him, especially before he begins to speak: after the inward fires of oratory are fanned into flame the eyes of the audience lose all terror.

**The Periodic Table** Oct 31 2022 The Periodic Table is largely a memoir of the years before and after Primo Levi's transportation from his native Italy to Auschwitz as an anti-Facist partisan and a Jew. It recounts, in clear, precise, unflinching beautiful prose, the story of the Piedmontese Jewish community from which Levi came, of his years as a student and young chemist at the inception of the Second World War, and of his investigations into the nature of the material world. As such, it provides crucial links and backgrounds, both personal and intellectual, in the

tremendous project of remembrance that is Levi's gift to posterity. But far from being a prologue to his experience of the Holocaust, Levi's masterpiece represents his most impassioned response to the events that engulfed him. The *Periodic Table* celebrates the pleasures of love and friendship and the search for meaning, and stands as a monument to those things in us that are capable of resisting and enduring in the face of tyranny.

*Egoists, A Book of Supermen* Aug 05 2020 *Egoists, A Book Of Supermen* is a work by James Huneker. It reflects upon the philosophies of several "egoist" thinkers: Stendhal, Baudelaire, Flaubert, Anatole France, Huysmans, Barrès, Nietzsche, Blake, Ibsen, Stirner and Ernest Hello.

**Courageous Churchmen: Leaders Compelling Enough to Follow** Nov 19 2021 What is it that compels a group of people to follow the leadership and vision of one person? Why are the insights and pursuits of certain individuals more persuasive than those of others? This book reveals how leadership should be characterized in the church, and how biblical leadership must differ from the kind of leadership promoted in the world. It explores the dynamics of leadership, particularly the character traits that need to be built up or eradicated in leaders, the dangers that leaders face and temptations to which they are particularly prone, and the development of future leaders: how to recognize leadership potential and encourage leadership gifts in the next generation.

*Food in Medieval Times* May 26 2022 New light is shed on everyday life in the Middle Ages in Great Britain and continental Europe through this unique survey of its food culture. Students and other readers will learn about the common foodstuffs available, how and what they cooked, ate, and drank, what the regional cuisines were like, how the different classes entertained and celebrated, and what restrictions they followed for health and faith reasons. Fascinating information is provided, such as on imitation food, kitchen humor, and medical ideas. Many period recipes and quotations flesh out the narrative. The book draws on a variety of period sources, including as literature, account books, cookbooks, religious texts, archaeology, and art. Food was a status symbol then, and sumptuary laws defined what a person of a certain class could eat--the ingredients and preparation of a dish and how it was eaten depended on a person's status, and most information is available on the upper crust rather than the masses. Equalizing factors might have been religious strictures and such diseases as the bubonic plague, all of which are detailed here.

Bike Boom May 02 2020 Bicycling advocates envision a future in which bikes are a widespread daily form of transportation, but this reality is still far away. Will we ever witness a true "bike boom" in cities? What can we learn from past successes and failures to make cycling safer, easier, and more accessible? In *Bike Boom*, journalist Carlton Reid uses history to shine a spotlight on the present and demonstrates how bicycling has the potential to grow even further, if the right measures are put in place by the politicians and planners of today and tomorrow. He explores the benefits and challenges of cycling, the roles of infrastructure and advocacy, and what we can learn from cities that have successfully supported and encouraged bike booms. In this entertaining and thought-provoking book, Reid sets out to discover what we can learn from the history of bike "booms."

**Arabia and the Arabs** Feb 08 2021 Long before Muhammed preached the religion of Islam, the inhabitants of his native Arabia had played an important role in world history as both merchants and warriors. *Arabia and the Arabs* provides the only up-to-date, one-volume survey of the region and its peoples, from prehistory to the coming of Islam. Using a wide range of sources - inscriptions, poetry, histories, and archaeological evidence - Robert Hoyland explores the main cultural areas of Arabia, from ancient Sheba in the south, to the deserts and oases of the north. He then examines the major themes of \*the economy \*society \*religion \*art, architecture and artefacts \*language and literature \*Arabhood and Arabisation. The volume is illustrated with more than 50 photographs, drawings and maps.

The Cambridge History of Medieval Monasticism in the Latin West Jul 28 2022 Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars, language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The *Cambridge History of Medieval Monasticism in the Latin West* offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

On Writing Well, 30th Anniversary Edition Aug 17 2021 *On Writing Well* has been praised for its sound advice, its clarity and the warmth of its style. It is a book for everybody who wants to learn how to write or who needs to do some writing to get through the day, as almost everybody does in the age of e-mail and the Internet. Whether you want to write about people or places, science and technology, business, sports, the arts or about yourself in the increasingly popular memoir genre, *On Writing Well* offers you fundamental principles as well as the insights of a distinguished writer and teacher. With more than a million copies sold, this volume has stood the test of time and remains a valuable resource for writers and would-be writers.

*History of Christianity* Oct 19 2021 First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for

its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known 'Jesus Sect', *A History of Christianity* explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

*The Cambridge History of the Byzantine Empire c.500-1492* Sep 29 2022 Byzantium lasted a thousand years, ruled to the end by self-styled 'emperors of the Romans'. It underwent kaleidoscopic territorial and structural changes, yet recovered repeatedly from disaster: even after the near-impregnable Constantinople fell in 1204, variant forms of the empire reconstituted themselves. *The Cambridge History of the Byzantine Empire c.500-1492* tells the story, tracing political and military events, religious controversies and economic change. It offers clear, authoritative chapters on the main events and periods, with more detailed chapters on outlying regions and neighbouring societies and powers of Byzantium. With aids such as maps, a glossary, an alternative place-name table and references to English translations of sources, it will be valuable as an introduction. However, it also offers stimulating new approaches and important findings, making it essential reading for postgraduates and for specialists. The revised paperback edition contains a new preface by the editor and will offer an invaluable companion to survey courses in Byzantine history.

**William Shakespeare** Oct 07 2020 In the spring of 1864 appeared Hugo's book entitled "William Shakespeare"—a book, that throws more light on the greatest genius of his own century than on the greatest genius of the age of Shakespeare. And in good sooth the light it throws on the latter is scarcely blinding. But it shows what Victor Hugo himself had come to regard as the poet's mission. The poet, as he tells us, "for a truth, is a priest. There is but one pontiff here below,—genius." Whereupon, if we ask by what signs we are to recognise our spiritual pastors and masters, we are told that they are "the men who represent the total sum of the absolute realisable by man," that they attain to the "highest summit of the human spirit," "the ideal," where "they occupy thrones," and that their thoughts plunge into the abyss of the infinite.

**Bastard Or Playmate?** Jun 26 2022 "Artistic media seem to be in a permanent condition of mutation and transformation. Contemporary artists often investigate the limits and possibilities of the media they use and experiment with the crossing, upgrading and mutilation of media. Others explicitly explore the unknown intermedial space between existing media, searching for the hybrid beings that occupy these in-betweens. This issue of Theater topics explores the theme of mutating and adapting media in its relation with theatre and performance"--P. [4] of cover.
