Raw, real, and relatable, this book is your guide to navigating life's fires. Bianca Olthoff is here to show that our struggles and hardships may be the fire that refines us instead of destroys us, brings us hope instead of despair, and leads us right into the arms of a God who loves us. Play with Fire, the debut book by popular speaker and teacher Bianca Juarez Olthoff, is the reminder that God isn't waiting until you have more resources or a spouse or a job so he can use you. He's

ready to use you now. Using the mythical creature, the Phoenix, which was also referenced by early church leaders, she parallels this story with God's work in her own life, highlighting the beauty of reinvention with fire as both the impetus and the method for change. Olthoff reminds us that we serve a God who is redemptive and can take the worst situations and use them for His glory. *Play With Fire* is a Bible-infused message that will help women discover: The way out of the middle is moving forward The personal and powerful nature of the Holy Spirit The power and sacrifice of transformation The unique calling and purpose of life involves transformation With Olthoff's distinct style, strong storytelling gifts, and powerful bible teaching, *Play with Fire* will remind readers that God has huge dreams for them. In Bianca's words, "He's whispering in the wind and speaking through the fire and shouting in silence the extraordinary dream He is birthing in you. His dream for you is far greater than the dream you have for yourself. It's not your identity or income or influence that will make this happen. Like Zechariah 4:6 says, "'It's not by might nor by power, but by my Spirit,' says the Lord." It's time to play with fire. Study guide and video study also available. Dr. Mark Harris is a firefighter with the Volunteer Fire Department in Beaver, West Virginia. He is also a practicing physician and combat veteran with the US Army. He runs the MD Harris Institute for education, research, and public service. 'My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person ...' Susannah Cahalan was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of what had happened or how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis, undergoing rages and convulsions, hallucinating that her father had murdered his wife; that she could control time with her mind. Everything she had taken for granted about her life, and who she was, was wiped out. *Brain on Fire* is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare autoimmune disease attacking her brain. His diagnosis of this little-known condition, thought to have been the real cause of devil-possession through history, saved her life, and possibly the lives of many others. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing journey, piecing it together using memories, journals, hospital videos and records. Written with passionate honesty and intelligence, *Brain on Fire* is a searingly personal yet universal book, which asks what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face: the loss of mind, body and self. *Brain on Fire* is a mesmerizing story' - Mira Bartók, New York Times bestselling author of *The Memory Palace* Susannah Cahalan is a reporter on the New York Post, and the recipient of the 2010 Silurian Award of Excellence in Journalism for Feature Writing. Her writing has also appeared in the New York Times, and is frequently picked up by the Daily Mail, Gawker, Gothamist, AOL and Yahoo among other news aggregator sites. *The Fireman, Fire Department Passbook(R)* prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: judgment in fire fighting situations; advising and interacting with others; using logical reasoning to draw valid conclusions; understanding and interpreting written material; mechanical reasoning; spatial orientation and visual memory; and more. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history—one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . .
