My Antonia is a novel by an American writer Willa Cather. It is the final book of the "prairie trilogy" of novels, preceded by *O Pioneers!* and *The Song of the Lark*. The debut novel from the New York Times–bestselling “master of crime fiction and equine thrills” features an investigation into the death of a jockey (The Atlantic Monthly). Dick Francis, Edgar Award–winning master of mystery and suspense, takes you into the thrilling world of horse racing. Steeplechaser Alan York knows well the dangers of the sport. But when his best friend and rival jockey Bill Davidson takes a fall in the middle of a race and doesn’t get up again, Alan discovers it was no accident. Someone rigged a tripwire to take down the running horse. The more Alan investigates, the more he suspects that there is more to the plot than just murderous horseplay. But even as he approaches the finish line to this mysterious race, those responsible for his friend’s death are already planning for Alan to have a mysterious accident of his own . . . “Dick Francis is a wonder.”

—Cleveland Plain Dealer “An imaginative craftsman of high order.” —The Sunday Times “Few things are more convincing than Dick Francis at a full gallop.” —Chicago Tribune “Few match Francis for dangerous flights of fancy and pure inventive menace.” —Boston Herald “[The] master of crime fiction and equine thrills.” —Newsday “[Francis] has the uncanny ability to turn out simply plotted yet charmingly addictive mysteries.” —The Wall Street Journal “Francis is a genius.” —Los Angeles Times “A rare and magical talent . . . who never writes the same story twice.” —The San Diego Union-Tribune “This gentle, gorgeously written book may be one of my favorites ever.” —Jenna Bush Hager (A Today show “Read with Jenna” Book Club Selection!) This “moving portrait of love and friendship set against a backdrop of social change” (The New York Times Book Review, Editor’s Choice) traces two married couples whose lives become entangled when the husbands become copastors at a famed New York city congregation in the 1960s. Charles and Lily, James and Nan. They meet in Greenwich Village in 1963 when Charles and James are jointly hired to steward the historic Third Presbyterian Church through turbulent times. Their personal differences however, threaten to tear them apart. Charles is destined to succeed his father as an esteemed professor of history at Harvard, until an unorthodox lecture about faith leads him to ministry. How then, can he fall in love with Lily—fiercely intellectual, elegantly stern—after she tells him with certainty that she will never believe in God? And yet, how can he not? James, the youngest son in a hardscrabble Chicago family, spent much of his youth angry at his alcoholic father and avoiding his anxious mother. Nan grew up in Mississippi, the devout and beloved daughter of a minister and a debutante. James’s escape from his desperate circumstances leads him to Nan and, despite his skepticism of hope in all its forms, her gentle, constant faith changes the course of his life. In *The Dearly Beloved*, Cara wall reminds us of “the power of the novel in its simplest, richest form: bearing intimate witness to human beings grappling with their faith and falling in love,” (Entertainment Weekly, A-) as we follow these two

couples through decades of love and friendship, jealousy and understanding, forgiveness and commitment. Against the backdrop of turbulent changes facing the city and the church’s congregation, Wall offers a poignant meditation on faith and reason, marriage and children, and the ways we find meaning in our lives. *The Dearly Beloved* is a gorgeous, wise, and provocative novel that is destined to become a classic. Jack Reacher finds himself in bad company in the second novel in Lee Child’s New York Times bestselling series. Jack Reacher is an innocent bystander when he witnesses a woman kidnapped off a Chicago street in broad daylight. In the wrong place at the wrong time, he’s kidnapped with her. Chained together, locked in the back of a stifling van, and racing across America to an unknown destination for an unknown purpose, they’re at the mercy of a group of men demanding an impossible ransom. Because this mysterious woman is worth more than Reacher ever suspected. Now he has to save them both—from the inside out—or die trying... “I’m as peaceful a man as you’re likely to meet in America now, but this is about a death I may have caused. Not slowly over time by abuse or meanness but on a certain day and by ignorance, by plain lack of notice. Though it happened thirty-four years ago, and though I can’t say it’s haunted my mind that many nights lately, I suspect I can draw it out for you now, clear as this noon. I may need to try.” Set in a summer camp in the Blue Ridge Mountains during the deceptively tranquil 1950s, *The Tongues of Angels* is a story of the twenty-one-year-old painting teacher, a superbly gifted boy, and their advance toward a startling fate. As the now-older man looks back at on that summer, he reflects on the meanings he thought he had learned on the threshold of manhood from the perspective of full maturity. Are your secrets safe . . . ? The blistering new thriller from the author of *THE FACE OF DEATH* and *SHADOW MAN*. A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she’ll never recover. Between her parents’ arguing and the battle she’s fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn’t sure a change of scenery will alter anything, but she’s willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo’s beach house. Once they’re settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that’s when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother’s dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? The classic London fogs—thick yellow “pea-soupers”—were born in the industrial age and remained a feature of cold, windless winter days until clean air legislation in the 1960s. Christine L. Corton tells the story of these epic London fogs, their dangers and beauty, and the lasting effects on our culture and imagination of these urban spectacles. A YA romance—with a sparkling commercial voice and a dash of science—that explores a relationship over six years The moment Spencer meets Hope the summer before seventh grade, it’s something at first sight. The pair become fast friends, climbing trees and planning world travels. After years of being outshone by his older brother and teased because of his Tourette syndrome, Spencer finally feels like he belongs. But as Hope

and Spencer get older and life gets messier, the clear label of “friend” gets messier, too. Through sibling feuds and family tragedies, new relationships and broken hearts, the two grow together and apart, and Spencer, an aspiring scientist, tries to map it all out using his trusty system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn’t always fit into easy-to-manage boxes, and it’s this messy complexity that makes life so rich and beautiful. Although it was still too dark to see well, Joe absentmindedly thrust his right hand into the sack to extract the specimen and have a look. Immediately, he winced with pain and yanked out his hand. A tiny black-and-white banded snake, less than ten inches long, was dangling limply from his middle finger, its fangs still sunk into his flesh. In the fall of 2001, deep in the jungle of Burma, a team of scientists is searching for rare snakes. They are led by Dr. Joe Slowinski, at forty already one of the most brilliant biologists of our time. It is the most ambitious scientific expedition ever mounted into this remote region, venturing into the foothills of the Himalayas. The bold undertaking is brought to a dramatic halt by the bite of the many-banded krait, the deadliest serpent in Asia. In the moment he pulled his hand from the specimen bag and saw the krait, Joe knew that his life was in grave and imminent peril. Thus began one of the most remarkable wilderness rescue attempts of modern times, as Joe’s teammates kept him alive for thirty hours by mouth-to-mouth respiration, waiting for a rescue that never came. A daredevil obsessed with venomous snakes since his youth, Slowinski was a modern-day adventurer who rose quickly to the top of his field, discovering many previously unidentified snake species in his brief yet exhilarating career. *The Snake Charmer* is at once brilliant biography and exotic travel literature, blended with an accessible introduction to the bizarre, fascinating-and sometimes controversial-world of snake science. The narrative transports the reader into primeval wilderness, from the Everglades to Peru to Burma, in search of rattlesnakes and boa constrictors, kraits and cobras. Joe Slowinski’s career was fast and exciting, his tragic final expedition a pulse-pounding struggle between man and nature. In *The Snake Charmer*, renowned journalist and author Jamie James captures the life and death of this charismatic, endlessly fascinating man. Exhaustively researched in interviews with Slowinski’s colleagues and family, and the author’s own trek into the wilds of Burma, this is narrative nonfiction in the tradition of *Into the Wild* and *The Perfect Storm*. A collection of inspirational essays dealing with family tradition, caregiving, grief, change and resilience, accompanied by colorful illustrations and photography. Introducing Wyoming’s Sheriff Walt Longmire in this riveting novel from the New York Times bestselling author of *Hell Is Empty* and *As the Crow Flies*, the first in the Longmire Mystery Series, the basis for *LONGMIRE*, the hit Netflix original drama series. Fans of *Ace Atkins*, *Nevada Barr* and *Robert B. Parker* will love this outstanding first novel, in which New York Times bestselling author Craig Johnson introduces Sheriff Walt Longmire of Wyoming’s Absaroka County. Johnson draws on his deep attachment to the American West to produce a literary mystery of stunning authenticity, and full of memorable characters. After twenty-five years as sheriff of Absaroka County, Walt Longmire’s hopes of finishing out his tenure in peace are dashed when Cody Pritchard is found dead near the Northern Cheyenne Reservation. Two years earlier, Cody has been one of four high school boys given suspended sentences for raping a local Cheyenne girl. Somebody, it would seem, is seeking vengeance, and Longmire might be the only thing standing between the three remaining boys and a Sharps .45-70 rifle. With lifelong friend Henry Standing Bear, Deputy Victoria Moretti, and a cast of characters both tragic and humorous enough to fill in the vast emptiness of the high plains, Walt Longmire attempts to see that revenge, a dish best served cold, is never served at all. In *Shadow Man*, Cody McFadyen took the suspense thriller where other writers have feared to tread. He introduced readers to a heroine every bit as dark and edgy as the serial killers she hunts: Special Agent Smoky Barrett. Now, in his latest novel, McFadyen brings Agent Barrett back to track down a killer who breaks all the rules. “I want to talk to Smoky Barrett or I’ll kill myself.” The girl is sixteen, at the scene of a grisly triple homicide, and has a gun to her head. She claims “The Stranger” killed her adoptive family, that he’s been following her all her life, killing everyone she ever loved, and that no one believes her. No one has. Until now. Special Agent Smoky Barrett is head of the violent crimes unit in Los Angeles, the part of the FBI reserved for tracking down the worst of the worst. Her team has been handpicked from among the nation’s elite law enforcement specialists and they are as obsessed and relentless as the psychos they hunt; they’ll have to be to deal with this case. For another vicious double homicide reveals a killer embarked on a dark crusade of trauma and death: an “artist” who’s molding sixteen-year-old Sarah into the perfect victim—and the ultimate weapon. But Smoky Barrett has another, more personal reason for catching *The Stranger*—an adopted daughter and a new life that are worth protecting at any cost. This time Smoky is going to have to put it all on the line. Because *The Stranger* is all too real, all too close, and all too relentless. And when he finally shows his face, if she’s not ready to confront her worst fear, Smoky won’t have time to do anything but die. The debut novel of an astonishing voice in psychological suspense *As dusk approaches a small Dublin suburb in the summer of 1984, mothers begin to call their children home. But on this warm evening, three children do not return from the dark and silent woods. When the police arrive, they find only one of the children gripping a tree trunk in terror, wearing blood-filled sneakers, and unable to recall a single detail of the previous hours. Twenty years later, the found boy, Rob Ryan, is a detective on the Dublin Murder Squad and keeps his past a secret. But when a twelve-year-old girl is found murdered in the same woods, he and Detective Cassie Maddox—his partner and closest friend—find themselves investigating a case chillingly similar to the previous unsolved mystery. Now, with only snippets of long-buried memories to guide him, Ryan has the chance to uncover both the mystery of the case before him and that of his own shadowy past. Richly atmospheric, stunning in its complexity, and utterly convincing and surprising to the end, *In the Woods* is sure to enthrall fans of *Mystic River* and *The Lovely Bones*. In this, Gaiman’s first book of short stories, his imagination and supreme artistry transform a mundane world into a place of terrible wonders -- a place where an old woman can purchase the Holy Grail at a thrift store, where assassins advertise their services in the Yellow Pages under “Pest Control,” and where a frightened young boy must barter for his life with a mean-spirited troll living beneath a bridge by the railroad tracks. It will dazzle your senses, touch your heart, and haunt your dreams. This compelling “important and timely” (Drew Faust, *Harvard Magazine*) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation’s collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of*

Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. The second report from the U.S. Surgeon General devoted to women and smoking. Includes executive summary, chapter conclusions, full text chapters, and references. This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products. "Pollan keeps you turning the pages . . . clear-eyed and assured." —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs—and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives. Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as "a good book on rocket stuff...that's a really fun one" by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades. Someone out there wants her to stare death in the face - again and again . . . "This colorful and dramatic saga is based on the classic film. A strong-willed Virginia farmer is trying to keep his family neutral as the Civil War rages. Union forces and the Confederates see things only in shades of Blue or Grey, so the family is inevitably swept up in the conflict, against all odds. Their story is a heartwarming and heart-rending portrayal of the upheaval that left wounds on the land and its people for generations to come."--Publisher. A New York lawyer remembers his boyhood in Nebraska and his friendship with a pioneer Bohemian girl. Once, Special Agent Smoky Barrett hunted serial killers for the FBI. She was one of the best—until a madman terrorized her family, killed her husband and daughter, and left her face scarred and her soul brutalized. Turning the tables on the killer, Smoky shot him dead—but her life was shattered forever. Now Smoky dreams about picking up her weapon again. She dreams about placing the cold steel between her lips and pulling the trigger one last time. Because for a woman who's lost everything, what is there left to lose? She's about to find out. In all her years at the Bureau, Smoky has never encountered anyone like him—a new and fascinating kind of monster, a twisted genius who defies profilers' attempts to understand him. And he's issued Smoky a direct challenge, coaxing her back from the brink with the only thing that could convince her to live. The killer videotaped his latest crime—an act of horror that left a child motherless—then sent a message addressed to Agent Smoky Barrett. The message is enough to shock Smoky back to work, back to her FBI team. And that child awakens something in Smoky she thought was gone forever. Suddenly the stakes are raised. The game has changed. For as this deranged monster embarks on an unspeakable spree of perversion and murder, Smoky is coming alive again—and she's about to face her greatest fears as a cop, a woman, a mother . . . and a merciless killer's next victim.
