Examination Paper (CBSE). Environmental Science Class XII From the "Marie Kondo of paper" comes a simple and accessible guide to paper management. Americans are drowning in paper. We keep stacks of it on the kitchen counter, stash it in drawers, and store file cabinets full of documents that we never even look at. Studies show that fully 85 percent of the paper in our lives can be tossed--but which 85 percent? And how do we organize and manage the 15 percent that remains? With The Paper Solution, founder of Organize365 Lisa Woodruff delivers a proven, step-by-step guide for what to shred, what to save, and how to sort what's left behind. With her method, you'll learn: • What documents you must absolutely hold on to • Which papers you can dispose of today • How to ditch your bulky filing cabinets and make your vital documents accessible and portable And at the heart of it all is the Sunday Basket: a box that sits on your counter and corrals those stray bills, forms, coupons, and scraps into an easy-to-use paper-management system. The Sunday Basket will become your new weekly habit--one that leads to less paper, less stress, and more time to spend on the things (and people) that matter most. The deceptively simple supermarket choice echoed in the title symbolizes the dilemma of a society on a collision course with the planet's life-support systems. About one-third of America's municipal solid waste is packaging--at least 300 pounds per person each year--and the "upstream" costs in energy and resources used to make packaging are even more alarming. In this fascinating and timely book, author Daniel Imhoff unwraps the packaging problem and gives consumers, product designers, and policymakers the information they need to take steps toward a more sustainable future.
